## CAREER OBJECTIVE

Motivated MCA student and Python Developer Intern with practical experience in full-stack web development, .NET desktop applications, and graphic design. Seeking a challenging role to apply my skills in frontend development, .NET, and visual design to deliver impactful solutions within a growth-oriented organization.

## INTERNSHIP EXPERIENCE

### Python Developer Intern

Weltech, Vadodara · Dec 2025 – Apr 2026 (4 Months)

- Developed and maintained Python-based web applications in a professional team environment.
- Built HireHub — Job Portal using Django MVT, covering listings, auth, and application management.
- Worked on backend logic, database design, and REST workflows; collaborated on sprint reviews.

## CERTIFICATIONS

### Data Analytics Job Simulation

Deloitte Australia · Forage · April 2026

- Completed data analysis and forensic technology simulation tasks.
- Built a Tableau dashboard to visualize and present business insights.
- Used Excel to classify data and draw actionable business conclusions.

## EDUCATION

### Master of Computer Applications (MCA)

Sardar Patel University, Anand, Gujarat · 2024 – 2026

### Bachelor of Computer Applications (BCA)

Sardar Patel University, Anand, Gujarat · 2021 – 2024

### 12th Standard – Commerce

Vadodara, Gujarat · 2019 – 2021

### 10th Standard

Vadodara, Gujarat · 2018 – 2019

## PROJECTS

### HireHub – Job Portal | Python · Django · MVT

- Full-stack job portal enabling employers to post jobs and candidates to apply, built with Django MVT architecture.
- Implemented user authentication, job listing/search/filter, and application management modules.

### Online Library Management System | PHP · MySQL

- Web-based system to manage book records, student data, and issue/return transactions using CRUD operations.

### Employee Management System | .NET · C#

- Windows desktop app for full employee record management using C# and .NET Framework with OOP principles.
